

# THE BENEFITS AND FEATURES OF CONTAINERS FOR CUSTOM PROJECTS

### CUSTOM SOLUTIONS

Metal shipping containers are very versatile. These containers can be used in numerous commercial applications ranging from secured storage space and custom event solutions to unique homes and modern offices.

### DIVERSE FEATURES

Shipping containers offer various benefits that are not available in non-steel containers. Metal shipping containers are robust, weather resistant and mobile. They are designed to be strong, secure and modular.

# SHIPPING CONTAINERS ARE EXTREMELY VERSATILE

## THEY CAN BE TRANSFORMED INTO NUMEROUS APPLICATIONS

Shipping containers are an ideal solution for diverse number of applications including event kiosks, ticket booths, private and public lounges, secure storage areas, film and media booths and much more.

### EVENT KIOSK

### STORAGE SOLUTIONS

Metal containers can be modified to accommodate a variety of storage requirements. In addition, shipping containers can be securely divided into smaller compartments with single or multiple doors as well as windows.

Shipping containers are easy to modify into a stand-alone lounge areas or terraces. Containers can be transformed into rooftop terraces, semi-open lounges to accommodate both event attendees and staff.

### LOUNGES & TERRACE

### MERCHANT BOOTHS

Shipping containers provide an ideal and secured solution for merchants who cater to event attendees. Metal containers are easy to modify and big enough to accommodate numerous equipment and product displays. They also provide a secured overnight storage facility.

Metal shipping containers can be used to create unique spaces including homes and offices. Everything can be designed and assembled ahead of time and installed on location (ideal for remote locations).

### CONTAINER HOMES & OFFICES

# SHIPPING CONTAINERS HAVE MANY PRACTICAL FEATURES

## THEY OFFER VARIOUS BENEFITS

Shipping containers are made of metal. They have a strong frame in order to be stacked up one on top of another. Metal containers last a long time and do not bend or expand as opposed to wood frames.

**ROBUST**

**SECURE**

Being made of steel, shipping containers provide an ideal secured storage solution for businesses, municipalities, event organizers, merchants and many other businesses looking to securely store their goods.

Shipping containers are made to withstand adverse weather conditions such as at sea, during transport or during storage. Metal containers are ideal solutions to keep your equipment in a safe, dry, organized and secured environment.

**WEATHER RESISTANT**

**MOBILE**

By their very nature, shipping containers are designed to be mobile. The container can be modified to fit your unique needs. In addition you can easily transport the container from one place to another or ship it to a remote location.

Shipping containers are designed to be stacked one on top of the other. This modular feature enables containers to be combined together to quickly create unique spaces without having to build all the frames from scratch.

**MODULAR**
